

- A) 15.7.85, 4.06 pm - 4.10 pm.
- B) Spherical, approx 30-40 feet diameter, with appearance of highly polished silver metal, with a protruding lip $\frac{1}{3}$ of the way from the bottom, this being mid grey in colour. The lower surface of this lip seemed to have a flat surface on the horizontal axis of the sphere, the upper surface of the lip seemed concave and faired in. The object emitted a throbbing double-beat sound somewhat akin to a ship's propeller. The object became silent before it was out of the audio range one would expect, as if the sound source had stopped.

- The object was seen from both indoors and outdoors, in a direction from the house of approx 330° through 260° . I was stationary on foot.

- E) The direction in which the object was first seen was approx 330° from the house. No landmarks available.
- F) Very approx 30° .
- G) Approx $\frac{1}{2}$ mile, no landmarks of use in this respect.
- H) The object moved in an arc from 330° to 260° (from observers position) increasing distance from the observer through this arc, and coming back towards the observers position, towards the end of the arc, visual contact was lost at this point, the object seemed to maintain a constant altitude.
- J) There was a white overcast sky behind the object at all times but visibility was very good and at no time was there any cloud or mist between object and observer.
- K) The only nearby site of the types specified is the airport at Gatwick.
- L) Air Traffic Control, Dunsfold Aerodrome, Surrey.
